

FIRE INSTRUCTOR II

NFPA Standard 1041, 2012 Edition

Test Construction Guide: Candidates are required to submit a portfolio for evaluation which contains:

- Written training schedule
- Needs analysis with a completed budget
- Documentation that resources are acquired within budget
- Description of recordkeeping processes
- Created lesson plan
- Modified lesson plan
- Created student evaluation instruments for both written and practical exams
- Test item analysis
- Course evaluation including modifications made to the course based on the student test analysis and comments from the students
- *Certified third party evaluators will review the documents listed above.*
- **In addition, candidates are required to participate in a practical skills exam presenting a lesson plan and supervising a high hazard training event. Note: See Skill Sheets 4 and 9.** These are signed by a certified evaluator. If the candidates complete the supervision of a high hazard exercise at a later time (other than the day of the portfolio submission and teaching scenario), it must be noted on the roster and submitted to the State Fire Marshal's Office. The skills sheet should be signed off by a certified evaluator.
- Examples of high hazard exercises are contained in the NFPA standard and include: live fire exercises, hazardous materials exercises, exercises involving power tools, and above and below graded rescue.
- All JPRs are tested. Candidates shall select a lesson plan prior to the practical so that all associated materials, equipment, slides, handouts, and quizzes are prepared. The lesson will be presented in a classroom setting and other candidates may be used as an audience. Candidates are required to use some type of audio visual equipment during the presentation. At a minimum an overhead projector may be used.
